The World Congress of Chinese Medicine (WCCM), hosted by the World Federation of Chinese Medicine Societies (WFCMS), is a large-scale, widely participated, and high-level academic event in the field of Chinese medicine worldwide. The WCCM provides a high-level platform for academic exchange, presentation of achievements, and industry cooperation for Chinese medicine practitioners worldwide. It has gained wide recognition and has become an influential international academic conference. To ensure high-quality conference organization, WFCMS now openly invites bids from its member societies. The relevant details are as follows:

I. Main Content of the WCCM

The WCCM is an annual international academic conference hosted by WFCMS. It aims to bring together experts and scholars in Chinese medicine from around the world to share research findings, discuss cutting-edge developments, and promote international collaboration.
